

SPIN HANGING

TYPE:

Suspension

PROJECT NAME:

design by Beat Karrer

SPIN is an adjustable pendant luminaire interpreting the classic sphere – with a special feature. Thanks to the excentric mounting point the light direction can be adapted most easily. With SPIN changing the lighting mood is just one turn away. Even being familiar in appearance the inner life is equipped with up to date LED technology. A simple yet smart mounting unit simplifies changing the reflector which is available with different angles of radiation. Spin comes with a powder-coated surface in standard or customized colors.
