

REFLEX

CEILING/WALL RECESSED

TYPE:

PROJECT NAME:

WALL MOUNTED

Our Reflex line of luminaires offers wall-recessed light reflected from an adjustable disc. By changing its position, you alter the direction in which light is reflected. The luminaire can be mounted on a wall or suspended ceiling, while the availability of various sizes facilitates making it match the size of the interior. An interesting lighting solution for a bedroom that makes it possible to avoid using direct light.

General and complementary lighting. Reflex will work perfectly at establishments such as clubs, galleries, and hotels, but also as lighting for the office and home.
