

# RAY SLIM

CEILING

TYPE:

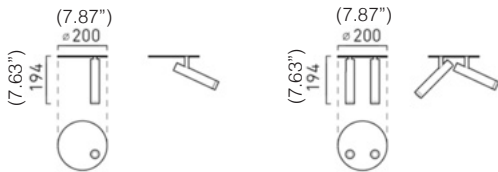

PROJECT NAME:

RECESSED

Ray is a ceiling luminaire available in two versions - featuring one or two light sources. Its slender form and subtle simplicity will please the eye of those who value subtle design. The spotlight will discreetly mark its presence in the interior. The high quality integrated and energy-efficient LED light source provides natural-looking light. Its optical lens enables shifting the lighting angle between 8° a 40°.

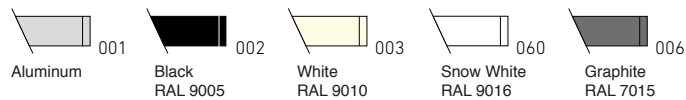

Directional spotlighting. Perfect for business establishments, offices, and residential interiors.
