CIRCUS™

ACOUSTIC SUSPENSION

TYPE:

PROJECT NAME:

Circus Ø200 Downlight

Circus Ø200 Uplight+Downlight

Model: L03S200DI

Description: Diffused light hanging luminaire for architectural lighting and acoustic control.

Application: Architectural indoor lighting

Materials: Aluminum structure, Opal PMMA diffuser

Structure Finishes: Matte black, matte white, painted gold

Acoustic Panel: Honeycomb polycarbonate acoustic panel with a removable cover in 100% polyester

Acoustic Fabric: See page 4

Light source: LED 153W, 24V, 19125 Lm. Downward emission. 80CRI. IP20.

Light control: Dimmable with 0-10V or TRIAC dimming

Model: L03S200INDI

Description: Diffused light hanging luminaire for architectural lighting and acoustic control.

Application: Architectural indoor lighting

Materials: Aluminum structure, Opal PMMA diffuser

Structure Finishes: Matte black, matte white, painted gold

Acoustic Panel: Honeycomb polycarbonate acoustic panel with a removable cover in 100% polyester

Acoustic Fabric: See page 4

Light source: LED (153W down, 17W up), 24V, (19125 Lm down, 2240 Lm up). Downward+Upward emission. (80CRI down, 90CRI up). IP20.

Light control: Dimmable with 0-10V or TRIAC dimming
