

GROOVE™

CEILING

TYPE:

PROJECT NAME:

design by Alain Monnens

Of all the models in the collection, the GROOVE perhaps comes closest to the famous design concept that “less is more”. The GROOVE is the ultimate tribute to the “no-nonsense” approach. No screws, clamps or bolts, except where absolutely unavoidable. The glass is slid into the mounting in an original – but easy to operate – manner. The GROOVE is highly practical, but with two light slits in the side panels as a fun “extra” feature.
