

SKA™ 1X

SUSPENSION

TYPE:

PROJECT NAME:

SKA is a hanging luminaire characterized by a simple cylindrical shape which takes the pulse of the space it is used in. It is made from epoxy powder coated finish aluminum stabilized with UV rays and provided with a 50° metallised polycarbonate reflector (26° beam available on request) and transparent screen. Equipped with a Chip On Board technology high efficiency LED light source, the product is provided with driver, cables for suspension in galvanized steel with a 1.2 mm diameter, 200 cm of three wire electrical cable 3x1 mm² and a ceiling attachment in painted steel. The degree of protection against the penetration of dust, solid objects and liquids is IP40.
