

YPSO™

SUSPENSION

TYPE:

PROJECT NAME:

The name ypso refers to the letter ypsilon on which its shape is inspired. The light is spread in three directions creating a large area of illumination. When installed in group, ypso seems to create structures in the air. A 3D printed connection piece is holding the tubes in place and provides a nice detail to the design. Ypso is provided with 3 steelcables so that the lamp can be installed horizontally or oblique by adjusting each cable individually. This playful pendant lamp is equipped with a high efficient LED strip, comes in two different sizes and is available in black and white.
