BEA 2x
INSTALLATION INSTRUCTIONS

TYPE:

PROJECT NAME:

1. Prepare Installation:
Disconnect power and identify the mounting location.

1.2. Remove Mounting Plate:
Separate the mounting plate from the fixture.

2. Install Mounting Plate:
Position and secure the mounting plate to the ceiling.

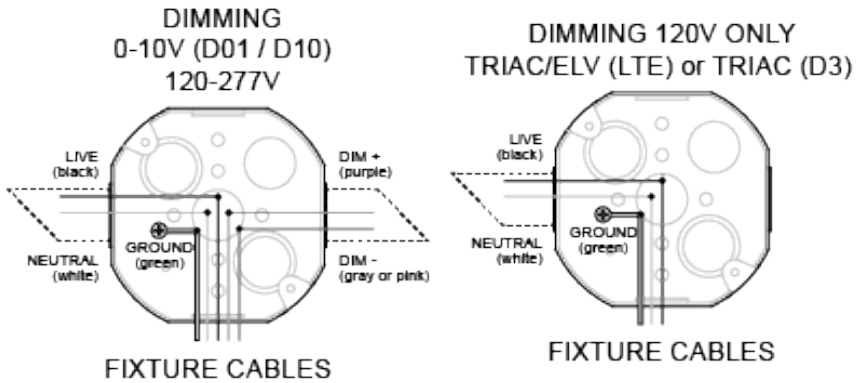

3. Make Electrical Connections:
Connect the fixture wires to the corresponding power supply wires.

4. Connect Fixture:
Carefully position and attach the fixture to the mounting plate.

5. Secure Fixture:
Tighten all fastening screws and ensure the fixture is properly aligned.

6-7. Test Installation:
Restore power and verify that both light sources operate correctly.
